

Chandlers Ford Veterinary Surgery

Winter 2023 Newsletter

Exciting News:

We had the lovely Caroline from Caroline Jenkins Photography come into our practice to take photos of us all in our work environment with our much loved pets to update our website. These will be available to view shortly on the website along with some interesting bios to read with each member of staff. It allows you to get to know the team better, and we can't wait for you to see the outcome!

We bid farewell to our lovely Veterinary Surgeon Charlie, on her exciting move to New Zealand to start a new chapter in her life! She will be sadly missed by us all, but please join us in wishing her the best of luck!

PUPPY PARTIES:

If interested we are now running Puppies Parties once a week in the evenings. They are free of charge for you to attend and they are a great way to introduce your puppy into socializing with others. These also offer free advice and training. This is for puppies between 1st and 2nd vaccinations only!

If this is something that sparks your interest please speak to our reception team and we can run through all of the details and send an email invitation.

Time Of Year / Valentines Day:

Things to be on the lookout for around this time of year:

- **Grit** on the roads is harmful to your pets paws and can cause irritation and burns.
- **Flowers** such as lilies and tulips are especially toxic to cats and can cause vomiting and diarrhoea if consumed. Also watch out for rose thorns.
- **Antifreeze** is particularly appealing to your pets as it has a sweet taste but it is very poisonous to them and can lead to fatality.
- **Chocolate** is very popular this time of year and can be very poisonous to your pets, please see our display board in reception for more information and signs to look out for if consumed.

Congratulations:

We would like to wish a big congratulations to our Student Vet Nurses: Tori & Gwen!

Congratulations to Tori on successfully passing her 1st year of training, now moving onto her 2nd year.

And a big congratulations to Gwen for passing her theory exams, now moving onto her OSCE's (objective structured clinical examinations).
